INTRODUCTION

NEPCon is an international, non-profit organisation that delivers sustainability services and engages in innovation projects to facilitate the transformation of business practices and consumer behaviour to promote the responsible use of natural resources. Around 1,300 Chain of Custody-certified clients benefit from our over 15 years of experience in providing services to the forest supply chain sectors – including timber processing and manufacturing companies, printing houses, publishers, paper merchants, traders and retailers of all sizes. Through a well-developed network of regional representatives and contractors, NEPCon offers timely and cost-effective certification services around the world.

The purpose of this report is to document performance of *KELHEIM FIBRES GmbH* hereafter referred to as “Organization”, against the requirements of the Verification Framework and Guidelines, (February 2019 version¹) and guidance documents² developed by Canopy and approved, supported and requested by the CanopyStyle Fashion and Textile Leaders for Forest Conservation (Leaders Group)³ and the over 200 brands, retailers and designers looking to implement their sourcing policies for man-made cellulosic textiles. The focus of this verification audit is to manage the risk and avoid sourcing from ancient and endangered forests and other controversial sources and implement other sustainable sourcing measures, across the supply chain from the point of wood harvesting in forests and/or plantations and through to the brand and retail customers. Man-made cellulosic fibre (MMCF) producers, are required to document and provide evidence towards a set of pre-defined social and environmental criteria and key progress indicators as part of the CanopyStyle initiative.

The audit presents the findings of NEPCon auditors who have evaluated company systems and performance against the applicable standard(s). The public version excludes confidential and sensitive information that did not does not affect the formal results of the audit. It is a result of an additional contract between NEPCon and *KELHEIM FIBRES GmbH* and has been approved by Canopy according to the CanopyStyle verification framework. Section 4 below provides the evaluation conclusions. The auditor reviewed and used Canopy’s map of ancient and endangered forests, which has been overlaid with the sourcing regions and list of suppliers of the company to assess the level of risk.

Dispute resolution: If NEPCon clients encounter organisations or individuals having concerns or comments about NEPCon services, these parties are strongly encouraged to contact the relevant NEPCon regional office or any member of the NEPCon Chain of Custody Programme. Formal complaints and concerns should be sent in writing.

1. GENERAL DESCRIPTION

1.1 Organization overview

Kelheim Fibres GmbH, headquartered in Kelheim, Germany, is a producer of viscose speciality fibres, that was established in 1935 as Süddeutsche Spinnfaser AG, which after several acquisition and changes occurred previously, it was taken over by EQUI-Fibres GmbH and renamed as Kelheim Fibres GmbH in 2004. Its fibres under GALAXY®, DANUFIL®, VISETA® and VILOFT® trademark, are used to produce textiles, hygiene and medical products to speciality papers as well as technical and household products.

Kelheim Fibres GmbH holds FSC Chain of Custody and PEFC certification and sources all inputs as FSC Controlled Wood, FSC Mix and PEFC Certified. Referred from its Wood Pulp Sourcing Policy, Kelheim Fibres GmbH's main raw material for the production of viscose fibres is wood pulp.

Kelheim Fibres GmbH's wood sourcing is from one sole supplier, that its dissolving pulp comes from two dissolving pulp mills suppliers, with wood species potentially used are *Abies alba*; *Acer pseudoplatanus*; *Acacia decurrens*; *Acacia mangium*; *Acacia mearnsii*; *Betula pendula*; *Betula spp.*; *Eucalyptus badjensis*; *Eucalyptus camaldulensis*; *Eucalyptus cloeziana*; *Eucalyptus dunnii*; *Eucalyptus fastigata*; *Eucalyptus grandis*; *Eucalyptus grandis x E. camaldulensis (GCs) hybrid*; *Eucalyptus macarthurii*; *Eucalyptus maculata*; *Eucalyptus nitens*; *Eucalyptus robusta*; *Eucalyptus saligna*; *Eucalyptus spp*; *Eucalyptus smithii*; *Eucalyptus urophylla*; *Fagus sylvatica L.*; *Fraxinus excelsior*; *Fagus spp.*; *Fraxinus spp.*; *Picea abies*; *Pinus spp.*; *Pinus elliottii*; *Pinus greggii*; *Pinus patula*; *Pinus radiata*; *Pinus taeda*; *Populus spp.* The regions the wood is potentially sourced from are: Czech Republic, Slovakia, Belarus, Lithuania, Estonia, Poland, South Africa, Portugal, Spain, Austria and German.

1.2 Organization scope

Kelheim Fibres GmbH headquarter is located in Kelheim Germany and has one mill located at the same site.

1.3 Organization sourcing policy

In addition to fulfilling the requirements of the European Timber Regulation (EUTR No. 995/2010), Kelheim Fibres GmbH sources exclusively wood pulp with preferably FSC or PEFC certification and strives to identify and eliminate all wood pulp from controversial sources.

Controversial sources are:

- Illegally harvested wood
- Wood from plantations established after 1994 through the conversion or simplification of natural forests
- Wood from forests or plantations of genetically modified trees
- Wood harvested in violation of traditional, human and civil rights
- Wood harvested without free, prior and informed consent by indigenous peoples and traditional communities
- Wood from ancient and endangered forests

2.1 Audit Team

Auditor name(s)	Qualifications
Gusti Ayu Fransiska Dewi	Gusti Ayu Fransiska Dewi is the NEPCon Responsible Sourcing Specialist, based in Bali, Indonesia. She serves as task manager for various agriculture and forest commodities projects within NEPCon Solutions Division. She is also an auditor for NEPCon LegalSource Standard, Rainforest Alliance Sustainable Agriculture Standard (RA SAS) Farm and Palm Oil Innovation Group (POIG). She joined Rainforest Alliance since 2015 and stayed until NEPCon-Rainforest Alliance acquisition that automatically transferred her to NEPCon to present.

2.2 Audit Overview

Site(s)	Audit date	Total audit time (Hours)
Desk audit	22 October 2019	2 hours and 40 minutes

Note: more details about audit process are provided in a separate audit plan

2.3 Description of Overall Audit Process

In October 22nd, 2019, NEPCon conducted an independent third-party verification audit of the progress made by Kelheim Fibres GmbH in implementing the commitment of the **Kelheim Fibres GmbH Wood Pulp Sourcing Policy**, to document the risk of sourcing from the world's ancient and endangered forests and other controversial areas, as well as additional related sustainability solutions and targets of the CanopyStyle Initiative.

The audit was conducted through desktop audit (including Skype call with Kelheim Fibres GmbH's representatives; Mr. Craig Barker (Managing Director), Mr. Alexander Bachmann (Strategic Marketing and Sales Manager), Mr. Michael Svoboda (Head of Quality Management) and Mr. Robert Tremmel (Head of Purchasing)).

4. EVALUATION RESULT

4.1 Evaluation Conclusion

Kelheim Fibres GmbH sources two dissolving pulp mills through one sole supplier. Kelheim Fibres GmbH holds FSC Chain of Custody and PEFC certification and sources all inputs as FSC Controlled Wood, FSC Mix and PEFC. One of its dissolving pulp mill suppliers has undergone CanopyStyle audit in 2017, which resulted in a conclusion of low risk for sourcing from ancient and endangered forests and other controversial sources. The same dissolving pulp mill supplier is undergoing their 2nd audit currently. The other dissolving pulp mill supplier is identified in CanopyStyle Classification of Dissolving Pulp Mills (including another supplier) as low risk for sourcing from key priority areas of ancient and endangered forests as well.

In summary, NEPCon verification audit provides evidence confirming that Kelheim Fibres GmbH is investing in work and resources to implement the commitments of its policy consistent with the solutions and targets of the CanopyStyle Initiative. Some challenges remain to fully implement the commitment throughout the company's supply chain. Additional work is required to fully meet all of the critical and progressive criteria.

Key Commitment	Performance Indicators	Rating
1. The MMCF producer has publicly communicated and is implementing the Fiber Sourcing/Forest Policy	1.1 Senior executive and key managers make a publicly available commitment to full implementation of the forest sourcing policy **	<i>Commitment Met</i>
	1.2 The MMCF producer has developed standard operating procedures (SOP) required to implement the Policy with input from and agreement of civil society stakeholders. **	<i>Commitment Met</i>
	1.3 The MMCF producer has assigned personnel with responsibility for Policy implementation. **	<i>Commitment Met</i>
	1.4 The MMCF producer has developed capacity and organizational structure to implement the Policy.	<i>Commitment Met</i>
	1.5 The MMCF producer has communicated its commitment to implement its Policy to all its suppliers. **	<i>Commitment Met</i>
	1.6 The MMCF producer has included requirements to implement the Policy in agreements/contracts with current and future suppliers. **	<i>Commitment Met</i>
	1.7 The MMCF producer has developed and is implementing a system to monitor supplier conformance with the Policy. **	<i>Commitment in Progress</i>
	1.8 The MMCF producer has put in place a transparent/public grievance procedure with the input and agreement of civil society stakeholders	<i>Commitment in Progress</i>
	1.9 The MMCF producer has developed, and is implementing, an action plan that address any identified non-conformance and grievance received. **	<i>Non Applicable</i>
	1.10 Key managers at each production site are aware of the Policy and demonstrate a similar commitment to implement it. **	<i>Commitment Met</i>
	1.11 Each production site managers have developed procedures to implement the Policy, when relevant. **	<i>Commitment Met</i>
2. The MMCF producer only sources raw material from suppliers that are transparent, traceable and are in conformance with the policy	2.1 An assessment of the MMCF producer supply chain has been completed globally and shared with Leaders Group. This assessment will be updated every year and shared with the Leaders Group. **	<i>Commitment Met</i>

	2.2 The assessment identifies all suppliers in the chain that supply the MMCF mills, beginning at the forest or plantation of origin.	<i>Commitment Met</i>
	2.3 A risk assessment has been done with the information and shared with Leaders Group.	<i>Commitment Met</i>
	2.4 This supply chain assessment has been presented to the Leaders Group and stakeholders, allowing for questions to be answered and information gaps to be highlighted.	<i>Commitment in Progress</i>
	2.5 The MMCF producer publishes its suppliers publicly, or, in the absence of such transparency, is providing its customers with a robust track and trace system that can be used throughout the supply chain up to clothing and textile retailers.	<i>Commitment in Progress</i>
3. No conversion of natural forest to plantations	3.1 The initial date of the plantation development has been documented and sourcing only occurs in areas identified pre 1994, or post 1994 with a supporting valid FSC certificate. **	<i>Commitment in Progress</i>
4. Since the signature of the Policy, all sourcing from ancient and endangered forests and other controversial sources have been eliminated	4.1 The MMCF producer has adopted clear definitions for the terms included in their Policy, such as "ancient & endangered forests", "intact forest", "natural forest", "endangered species", "controversial sources", "high conservation value", "high carbon area", "peatlands", etc. that are consistent with this document and the forest sourcing policy template. **	<i>Commitment Met</i>
	4.2 All areas meeting the definition of "ancient and endangered forests" have been identified and mapped and suppliers and fibre that have a high risk of being considered controversial sources have been identified and shared with Leaders Group. **	<i>Commitment Met</i>
	4.3 Any raw materials in the MMCF producer's supply chain originating from ancient and endangered forests or other controversial sources and acquired before the Policy was adopted by the company, such as stocks in log yards, will be documented, identified accordingly and utilised by the mills. **	<i>Non Applicable</i>
	4.4 The MMCF producer is aware of all relevant local, national and international laws and there is no evidence of non-compliance, with local, national or international laws. **	<i>Commitment Met</i>
	4.5 The commitment not to source from ancient and endangered forests and other controversial sources is verified. **	<i>Commitment Met</i>
5. If suppliers contravene these criteria, the MMCF producer will first engage them to change practices and then re-evaluate its relationship with them	5.1 All MMCF producers' suppliers are identified and the forest of origin is known. **	<i>Commitment Met</i>
	5.2 The MMCF producer has developed procedures for engaging with suppliers, up to withdrawing from purchase and other agreements in situations where non-conformance is found. ** (Note: This means potential legal and contractual issues associated with withdrawal are identified and addressed.)	<i>Commitment Met</i>
	5.3 The MMCF producer has documented withdrawals from supply agreements where non-conformance has been found. **	<i>Non Applicable</i>
6. The MMCF producer welcomes interested stakeholders and Leaders Group observers to verify the implementation.	6.1 Leaders Group and other stakeholder observers are invited to participate freely and to report observations during this verification process. **	<i>Commitment Met</i>
	6.2 Large scale scientifically based conservation	<i>Non Applicable</i>

	planning, High Conservation Value assessments, and/or High Carbon Value assessment, identifying areas for protection, has been completed, based on best available science, by a credible third party, and made public. **	
	6.3 If sourcing from controversial areas, with records of conflict and human rights violation, an assessment that includes participatory mapping of lands owned or claimed by indigenous and local communities, identification of areas for protection, areas for conflict resolution and remedy of past harms that involve affected parties, their chosen advisors and relevant stakeholders, have been completed by a credible and mutually agreed third party and made public. **	<i>Non Applicable</i>
	6.4 The MMCF producer has developed a management plan that identifies measures to protect areas identified in large scale scientifically based conservation planning, HCV and HCS assessments with the Free, Prior and Informed Consent of indigenous and local communities whose land or land claims are impacted and with input from credible ENGOs. **	<i>Non Applicable</i>
	6.5 The MMCF producer has developed and implemented a time-bound action plan to actively seek the legal protection of these areas with final land-use decision-makers in a way that meets principles of Free Prior and Informed Consent. **	<i>Non Applicable</i>
7. The MMCF producer shall recognize, respect and uphold human rights and the rights of communities and workers affected by the operations of their supply chain and affiliated companies	7.1 The MMCF producer has developed and requires its suppliers to adopt a similar policy, systems and procedures to implement Free, Prior and Informed Consent of indigenous people and local communities. **	<i>Commitment Met</i>
	7.2 Suppliers document how they conform with the MMCF producer's commitment to recognize and respect human rights, community rights, First Nations rights and rights of workers. **	<i>Commitment Met</i>
	7.3 The MMCF producer and its suppliers show responsible handling of complaints and resolution of conflicts in a transparent and accountable manner that is mutually agreed by the parties and includes relevant stakeholders.	<i>Commitment Met</i>
	7.4 The MMCF producer and its suppliers have developed internal capacity and organizational structure to recognize and respect the rights of its workers	<i>Commitment Met</i>
	7.5 The MMCF producer has developed procedures to ensure its Tier one suppliers uphold the International Labour Organization (ILO) Declaration on Fundamental Principles and Rights at Work and will require the equivalent of their own suppliers.	<i>Commitment Met</i>
	7.6 Recognition and respect for human rights is demonstrated. There is no evidence of avoiding or failing to resolve social conflicts and remedy past or current human rights violations. **	<i>Commitment Met</i>
8. Development of Innovative and Alternative Fiber	8.1 The MMCF producer has developed and implemented an internal action plan to collaborate with innovative companies and suppliers to explore and encourage the development of new alternative fiber sources that reduce environmental and social impacts, such as agricultural residues and recycled fibers. **	<i>Commitment Met</i>
	8.2 The research and development phase to produce pulp and cellulosic fiber made from alternative fiber	<i>Commitment in Progress</i>

	sources has been successfully completed and the MMCF producer is entering a commercial scale phase.	
9. Voluntary advocacy for conservation solutions	9.1 The MMCF producer has a track record of participating in events that support collaborative and visionary system solutions that aim protect remaining ancient and endangered forests. **	<i>Commitment Met</i>
	9.2 When prompted, the MMCF producer uses its brand influence or purchasing influence to positively impact conservation and development solutions that have the Free, Prior and Informed Consent of affected indigenous and local communities. **	<i>Commitment Met</i>
	9.3 The MMCF producer publicly supports science-based international and national target(s) and programs for preserving designated protected and conservation areas that have the Free, Prior and Informed Consent of affected indigenous and local communities.	<i>Commitment Met</i> <i>Commitment Met</i>
	9.4 The MMCF producer is developing and implementing specific programs to increase the endangered species population and the maintenance of their habitat through time, with government and/or ENGO programs. **	<i>Commitment in Progress</i>
10. Responsible forest management	10.1 The MMCF producer has defined criteria for responsible forest management, gives a preference for FSC certification and has developed and implemented an action plan to increase FSC intake. **	<i>Commitment Met</i>
11. Reduction of Greenhouse Gas (GHG) Footprint by recognizing the importance of forests and peatlands as carbon storehouses	11.1 The MMCF producer has developed and implemented procedures to evaluate their suppliers' performance in reducing GHG.	<i>Commitment in Progress</i>
	11.2 The MMCF producer can document giving preference to suppliers that have identified and adopted management measures to protect forested peatland at the concession and landscape level (peat dome) and that have identified, withdrawn from and restored peatlands and their hydrology. **	<i>Commitment in Progress</i>
12. Pollution Prevention	12.1 * This verification process <u>will not</u> address the pulp and viscose manufacturing process which can lead to air and water emissions that impact overall environmental quality. However, it will be noted when MMCF producers invest in and use the cleanest dissolving pulp and viscose manufacturing technology (i.e. Iyocell process). The indicators will be the number of mills using such cleaner processes and the % of overall volumes produced with such technology. This information will be treated and framed as additional bonus performance by the MMCF producer.	<i>Commitment in Progress</i>

Summary: Kelheim Fibres GmbH's one dissolving pulp mill supplier, was audited to the CanopyStyle verification framework in 2017 and determined to be sourcing from supply areas with low risk for ancient and endangered forests and other controversial sources. Their second audit is currently underway. Additionally, another dissolving pulp mill supplier, is covered in the Classification of Dissolving Pulp Mills. Results for both suppliers are determined at low risk of sourcing from key priority areas of ancient and endangered forests. Kelheim Fibres GmbH itself has conducted risk assessment for both suppliers with consistent results.

3. No conversion of natural forest to plantations

Description of the finding:

Kelheim Fibres GmbH sources all pulp from 2 suppliers engaged in CanopyStyle initiative. Despite the company confirmed is not sourcing from tropical areas and peatlands, some of their products are coming from FSC Mix and FSC Controlled Wood, which do not include forest management standard. The documentation is their policy and contracts.

Summary: Kelheim Fibres GmbH sources all pulp from 2 suppliers engaged in CanopyStyle initiative. The organization is not sourcing from tropical areas and peatlands.

12. Pollution Prevention

Indicators

12.1 This verification process will not address the pulp and viscose manufacturing process which can lead to air and water emissions that impact overall environmental quality. However, it will be noted when MMCF producers invest in and use the cleanest dissolving pulp and viscose manufacturing technology (i.e. lyocell process). The indicators will be the number of mills using such cleaner processes and the % of overall volumes produced with such technology. This information will be treated and framed as additional bonus performance by the MMCF producer.

Findings

Conformance with Indicator:

- Not Applicable
- Commitment Met
- Commitment in Progress
- Commitment Not Met
- Insufficient Information Available

Description of the finding:

Kelheim Fibres GmbH does not have lyocell process but since a fire recently occurred at Kelheim Fibres GmbH mill, it switched into more efficient technologies. The technologies include sulphur and CO2 emission reduction and waste purification, however, its power plant uses 100% natural gas.

Summary: Kelheim Fibres GmbH does not make use of the lyocell process. The company has started to make investments in more efficient technology in its manufacturing process.

Appendix 3: RECOMMENDATIONS FOR IMPROVEMENT

Canopy applauds Kelheim Fibres GmbH for embarking on the verification process in fall 2019, and for achieving an audit result of low risk of sourcing from key areas of ancient and endangered forests. The audit nonetheless identifies some areas for improvement. Based on the review of the audit report, Canopy recommends the following next steps:

Further develop and implement the procedure to monitor supplier compliance with Kelheim Fibres GmbH's wood and pulp sourcing policy;

Continue to increase the amount of Forest Stewardship Council forest management certified inputs used in products, the company should set clear targets and timelines to increase FSC intake over time, with a focus on FSC 100%. FSC Mix should be an interim step to achieving fully certified material.

Explore additional avenues to support the conservation of forests, particularly those with high biodiversity and carbon value;

Scale up investments in research and development of viscose fibers that use a high proportion of recycled textile and/or agricultural waste with low environmental impacts. Develop targets and timelines for their use in commercial products.

As mentioned in the CanopyStyle audit framework, the company is expected to notify Canopy should it decide to expand its supplier list beyond the current source.

As mentioned in the CanopyStyle audit framework, ongoing audits and/or random site visits will be essential to ensure that Kelheim Fibres GmbH continues to implement their policy and meets the expectations of the CanopyStyle Initiative.

Once again, we congratulate you for the timely completion of the audit and for your positive results. We look forward to working collaboratively with your company to address any outstanding issues.
